Kaneohe, HI 96744

Services:

Day Treatment program focuses on treatment, relapse prevention, and recovery for individuals with serious mental illness and addiction concerns. Day Treatment provides the consumer with the opportunity to participate in a structured therapeutic program while being able to reside in the community. Activities include, but are not limited to, group counseling, education, skill building, recreational therapy, and family services.

Specialized Residential Services Population (SRSP) is a long term (up to 6 months) residential program for adults with serious mental illness and or co-occurring alcohol and other drug problems. Referrals to the SRSP are received through case managers and social workers. The SRSP includes the following components: observation, monitoring and treatment twenty-four (24) hours a day, seven (7) days a week. Individual and group programming and activities are provided to facilitate recovery and assist the consumer to live successfully in the community, maintain an abstinent lifestyle, regain employment, develop and maintain social relationships, or to independently participate in social, interpersonal, community and peer support activities to increase community stability.

Crisis Support Management (CSM) services provide time-limited support and interventions to individuals who are in crisis and in need of necessary services, and are not linked to a case manager. The goal of the program is to return consumers who have known or suspected mental health or substance abuse diagnosis to their pre-crisis state. Services typically include assisting the individual in stabilizing community living and accessing needed services. Services are provided by crisis case managers with education, experience and training in crisis stabilization. CSM provides services throughout Oahu, Kauai and the island of Hawaii.

Adult Drug and Alcohol Division (ADAD-ICM) is an Integrated Case Management (ICM) program for persons with drug and alcohol problems who are under the supervision of one of four departments of the Criminal Justice System (Department of Public Safety's Intake Service Center, Judiciary's Adult Probation, Department of Public Safety's Corrections Division, Hawaii paroling Authority), who refer individuals for this service. Service is provided on the islands of Hawaii, Kauai, Maui, and Oahu. The primary purpose of this program is to rehabilitate and enable individuals to return to the highest possible level of functioning.

Intensive Outpatient (IOP) services to all age groups and includes access to adjunct therapies that support recovery for the individual and family. We currently offer outpatient and intensive outpatient services for both adolescents and adults—an expanded array of services that include on-site assessments, co-occurring disorder services, and matching the client to the appropriate services. The Intensive Outpatient program meets 3 times a week for 3 hours for 12-16 weeks

Pakolea ADAD Intensive Outpatient Treatment Program provides intensive outpatient substance abuse treatment services for adolescents who meet DSM IV-TR substance abuse/dependence criteria. The program uses a curriculum to teach about positive coping skills, improve self-efficacy and build social skills. Referrals accepted from parents, schools, other providers, etc. with preference given to Windward youth.

Phone: 327-6500

Services:

Day Treatment program focuses on treatment, relapse prevention, and recovery for individuals with serious mental illness and addiction concerns. Day Treatment provides the consumer with the opportunity to participate in a structured therapeutic program while being able to reside in the community. Activities include, but are not limited to, group counseling, education, skill building, recreational therapy, and family services.

Specialized Residential Services Population (SRSP) is a long term (up to 6 months) residential program for adults with serious mental illness and or co-occurring alcohol and other drug problems. Referrals to the SRSP are received through case managers and social workers. The SRSP includes the following components: observation, monitoring and treatment twenty-four (24) hours a day, seven (7) days a week. Individual and group

programming and activities are provided to facilitate recovery and assist the consumer to live successfully in the community, maintain an abstinent lifestyle, regain employment, develop and maintain social relationships, or to independently participate in social, interpersonal, community and peer support activities to increase community stability.

Crisis Support Management (CSM) services provide time-limited support and interventions to individuals who are in crisis and in need of necessary services, and are not linked to a case manager. The goal of the program is to return consumers who have known or suspected mental health or substance abuse diagnosis to their pre-crisis state. Services typically include assisting the individual in stabilizing community living and accessing needed services. Services are provided by crisis case managers with education, experience and training in crisis stabilization. CSM provides services throughout Oahu, Kauai and the island of Hawaii.

Adult Drug and Alcohol Division (ADAD-ICM) is an Integrated Case Management (ICM) program for persons with drug and alcohol problems who are under the supervision of one of four departments of the Criminal Justice System (Department of Public Safety's Intake Service Center, Judiciary's Adult Probation, Department of Public Safety's Corrections Division, Hawaii paroling Authority), who refer individuals for this service. Service is provided on the islands of Hawaii, Kauai, Maui, and Oahu. The primary purpose of this program is to rehabilitate and enable individuals to return to the highest possible level of functioning.

Intensive Outpatient (IOP) services to all age groups and includes access to adjunct therapies that support recovery for the individual and family. We currently offer outpatient and intensive outpatient services for both adolescents and adults—an expanded array of services that include on-site assessments, co-occurring disorder services, and matching the client to the appropriate services. The Intensive Outpatient program meets 3 times a week for 3 hours for 12-16 weeks

Veri-5 is a personal drug screen collection kit that can be used confidentially in your own home. Collect a urine specimen in the provided container with a confidential PIN number, and drop it off at the closest DLS satellite lab for accurate and confidential testing. Call 589-5282 the next workday morning, provide your PIN number and receive the results confidentially over the phone.

- Use for a personal drug test or to test a family member. Veri-5 tests for five popular street drugs: amphetamines “crystal meth” or “ice”, cocaine, marijuana, opiates and PCP.
- Provides you accurate laboratory drug testing without a physician request.
- Have an experienced laboratory run your test. No kit to figure out, interpret, and wonder if the test is accurate.
- Results given by confidential PIN number over the phone.

NOTE: Veri-5 results are not intended for medical, workplace, or law enforcement purposes.

Veri-5 is available at all [DLS Satellite Locations](#).

If you are concerned about a family member that may be abusing either illegal or prescription drugs, please consult your family physician.
